PROFESSIONAL SUMMARY

DevOps Engineer with 10+ years of experience across Cloud Infrastructure and On-Premises Data Centers[cite: 3]. Specializing in GitOps practices, Infrastructure as Code (IaC), and automated CI/CD pipelines to drive faster, safer, and highly resilient software delivery.

Currently managing public cloud environments using Terraform/OpenTofu, ArgoCD, and Git-driven pipelines to ensure end-to-end traceability, application performance, and security[cite: 3]. Experienced in orchestrating complex CI/CD migrations (e.g., Bamboo to GitHub Actions) and developing custom internal platform tools using Python to streamline infrastructure operations[cite: 3].

CORE COMPETENCIES

- **Cloud & DevOps:** AWS, Azure, Terraform, OpenTofu, ArgoCD, GitOps, Docker, Kubernetes, CI/CD Pipelines, GitHub Actions, Bamboo, Spinnaker, GitLab CI, Helm[cite: 3]
 - **Development & Automation:** Python (Internal Tooling & Platform Engineering), Bash Scripting[cite: 3]
 - **Containers & Platforms:** Red Hat OpenShift, VMware vSphere, Sonatype Nexus[cite: 3]
 - **Infrastructure & Middleware:** Linux (RHEL, Ubuntu), JBoss EAP, Apache Kafka, Redis, System Administration[cite: 3]
 - **Databases:** Oracle Database, Microsoft SQL Server[cite: 3]
-

PROFESSIONAL EXPERIENCE

Trustly - DevOps Engineer

Jul 2023 - Present | Vitória, Espírito Santo, Brazil (Remote/On-site)[cite: 1]

- Manage public cloud infrastructure operations focused on reliability, application performance, and high availability[cite: 1, 3].
- Implement GitOps workflows utilizing Terraform/OpenTofu, ArgoCD, and Git to enable fully traceable and automated deployments[cite: 1, 3].
- Lead the engineering initiative to migrate CI/CD pipelines from Bamboo to GitHub Actions, while maintaining and optimizing legacy workflows in Spinnaker[cite: 1, 3].
- Develop internal CLI and automation tools in Python to internalize and streamline infrastructure management tasks[cite: 1, 3].

Grupo Águia Branca - 9 yrs 10 mos (Total)[cite: 1, 3]

Cariacica, Espírito Santo, Brazil[cite: 1, 3]

Infrastructure Team Lead (Production & Operations) | Jan 2022 - Jul 2023[cite: 1, 3]

- Led infrastructure operations for critical business systems, maintaining 99.9%+ uptime for 200+ production applications[cite: 1, 3].
- Managed the implementation of Red Hat OpenShift and containerized application environments[cite: 1, 3].

- Administered core internal platform engineering tools including GitLab (repository and CI/CD) and Sonatype Nexus (artifact management)[cite: 1, 3].
- Managed high-availability enterprise stacks with JBoss EAP, Kafka, Redis, Oracle, and SQL Server databases[cite: 1, 3].

Infrastructure Analyst (Production) | Feb 2018 - Jan 2022[cite: 1, 3]

- Ensured high availability and performance for 200+ production applications, focusing on mission-critical ticketing and sales systems[cite: 1, 3].
- Administered middleware platforms including JBoss EAP, Kafka, and Redis, while managing SQL Server and Oracle databases[cite: 1, 3].
- Participated in key integration projects for enterprise APIs and backend services[cite: 1, 3].

Infrastructure Support Analyst | Sep 2016 - Feb 2018[cite: 1, 3]

- Managed core IT infrastructure operations, including Exchange, Windows Server, VMware vSphere, ADDS, DNS, and DHCP environments[cite: 1, 3].
- Handled troubleshooting and maintenance for File Servers, Remote Desktop Apps, and Citrix XenApp services[cite: 1, 3].

IT Lab Technician | Oct 2013 - Sep 2016[cite: 1, 3]

- Provided direct technical support for workstations, hardware, and mobile devices across multiple business departments[cite: 1, 3].

EDUCATION

- **MBA in Cloud Computing & DevOps** - Impacta Tecnologia (2021 - 2023)[cite: 1, 3]
- **Bachelor's Degree in Computer Science** - FAESA (2013 - 2017)[cite: 1, 3]
- **Associate Degree in Industrial Automation** - Senai Vitória (2010 - 2012)[cite: 1, 3]

FEATURED CERTIFICATIONS

- **GitHub Actions** - GitHub
- **AWS Certified Cloud Practitioner** - Amazon Web Services[cite: 1]
- **Uncomplicating Docker** - LINUXtips[cite: 1]
- **Mutirão DevOps / GitOps** - LINUXtips
- **Claude Academy (AI Fluency & Tooling)** - Anthropic
- **Administering / Provisioning SQL Server Databases** - Microsoft[cite: 1]
- **ITIL Foundation in IT Service Management**[cite: 1]

LANGUAGES

- **Portuguese:** Native[cite: 1, 3]
- **English:** Professional Working Proficiency[cite: 1, 3]
